PREFACE

This book is a compilation of loan and credit related circulars, directives and guidelines of Bangladesh Bank, which is also supplemented with the relevant provisions of laws, case-laws and commentaries. It does not claim comprehensiveness from all aspects in the relevent field, however it offers an all-inclusive compilation on the loan and credit related provisions of Bangladesh Bank which are also available in its website. Whereas, with the growing advanced economy of our country, the scope and area of advancing loans and credit facilities by the banks and the financial institutions are getting wider day by day. It has become one of the main affairs and functions of banks and financial institutions. As a result, loan issue has captured an important area of financial governance. It gives birth to a multiple complexities and problems. For bringing proper regulation in this complex area, Bangladesh Bank issues circulars/ guidelines/ directives time to time which form integral part of the related laws in the relevant pasture. But the lack of having any appropriate compilation always causes difficulty for the bankers, credit officers, lawyers, judges and the concerned persons to access those easily. To fill-up that vacuum, this book offers a pleasant compilation of the Bangladesh Bank's circulars, directives and guidelines relating to loan and credit along with related legal provisions, important comments and case-laws.
